

Our trekking horses are the outcome of the interbreeding between New Forest Ponies and Arab. Grazing and galloping together in the same park, they are in good harmony with each other. Thanks to the Luberon's preserved nature they are really calm and have a gentle temperament.

Absolutely recommendable for both beginners and professionals!

Here is the family tree of our horses :

Each year, there are about 3 newborn foals. The young horses begin training at 3 years of age and start trekking around age four. So we have about 8 young horses permanently.

La Florentine offers full livery for your horses at [{phpfile}plugins/content/Prix/PensionCheval.php{/phpfile}](#) € per day.

It is also possible to rent certain of our horses.
